Tape Output in CP00002

In CP00002, when Dynamics, Status, and Organization data are output to tape format, an operator has to mount the tapes. There have been multiple occasions where attempts have been made to mount incorrect tapes, impeding successful job execution. As the kind of tape used is of no consequence, the process should be an automatic one, with no operator intervention required, nor a phone call to operations necessary prior to submitting the job.

Modify CAPPS production CP00002 to output Dynamics, Status, and Organization data to tape format that can be produce automatically, without operator intervention.
